

EXAM 7 SPRING 2015 SAMPLE ANSWERS AND EXAMINERS' REPORT

GENERAL COMMENTS:

- Candidates should note that the instructions to the exam explicitly say to show all work; graders expect to see enough support on the candidate's answer sheet to follow the calculations performed. While the graders made every attempt to follow calculations that were not well-documented, lack of documentation often resulted in the deduction of points where the calculations could not be followed or were not sufficiently supported.
- Incorrect responses in one part of a question did not preclude candidates from receiving credit for correct work on subsequent parts of the question that depended upon that response.
- Candidates should try to be cognizant of the way an exam question is worded. They must look for key words such as "briefly" or "fully" within the problem. We refer candidates to the *Future Fellows* article from December 2009 entitled "The Importance of Adverbs" for additional information on this topic.
- Graders made a good-faith effort to read all responses, but occasionally candidates earned no credit where their responses were illegible.
- Some candidates provided lengthy responses to a "briefly describe" question, which does not earn further credit, but instead takes up additional time during the exam.
- Generally, candidates were fairly well prepared for this exam. However, candidates should be cautious of relying solely on study manuals, as some candidates lost credit for failing to provide basic insights and content contained in the syllabus readings.
